Diane,

Agreed on the schedule issue, I'll have a discussion with them and make sure we get proper schedules going forward.

Thank you,

Another 2 weeks is fine, but they were supposed to provide us with a schedule. That is all I was asking for, this is the second time we agreed that they would send us a schedule for something and nothing came.

I will put together an email tomorrow with instructions for the rail vs truck with timeframes. No quick turnarounds needed.

Thanks  
Diane

Diane,

CDM was hoping that another 2 weeks would be ok for the HHRA memo. They didn't put a rush on it based on the last meeting, let me know if you need it quicker and I'll see what they can do.

How soon do you want the analysis for the truck vs rail? I figure they can do some preliminary investigating prior to our call next week and we can discuss in more detail then, unless you need a quick turnaround on it.

Thank you,

Diane,  
CDM just submitted their first bill at the end of September, it's being processed now. It hasn't shown up on the IA yet, but should hit for the next one for the period from 19 Sept to 1 Nov.

Attached is a breakdown of their costs as provided in the first bill, I also included our last IA Bill showing in-house costs to date. Let me know if you need more than that.

I'll reach out to CDM to get a schedule and let them know you want them to start on the disposal analysis, I can forward the documents or you can send to CDM (Grace Chen and Thomas) and copy me, up to you.

Thank you,

Justin Shoemaker

Hi Justin

Thanks for the meeting minutes. Do you know when CDM is supposed to get us the schedule for the risk assessment write up? It has been a few weeks, I was expecting to see it by now. Also, can you please provide me monthly updates on the costs spent on this IA? I haven't seen anything yet.

Finally, I would like CDM to get started on the rail vs truck disposal analysis, while we are still working on the compliance averaging aspect. This is something I think they can do now. I have a few letters from the PRPs that rip a few holes in our truck vs rail analysis that I send you/them. I think this can be conveyed over an email.

Thanks

Diane,

Here are the meeting minutes from the last meeting. Would you like to keep tomorrow's meeting, is there anything further to discuss regarding the HHRA memo?

Thank you,

Justin

Attached is the draft meeting minutes for our September 23 call. Please review. If USACE does not have any comments, please forward to EPA.

As for our routine conference call on October 7, we do not have any topic for discussion. Could you let us know if USACE and EPA would like to keep the conference call on October 7 or would like to

reschedule?

Thanks.

Grace Chen
